WHAT IS THE PRIVATE CLIENTS INDICES?

Peer group comparisons

The ARC Private Client Indices (PCI) give a unique insight into the actual returns being generated by investment managers for their discretionary private client portfolios. The PCI performance series are based on real performance numbers provided by participating investment managers.

PCI provide an accurate reflection of the actual returns that a private client should expect for a given risk appetite. This approach leaves investment managers free to use any and all investment strategies, vehicles and structures in the pursuit of the maximum return per unit of realised volatility.
